

5/7/2020 – USMLE task force: letter from MSSNY

Dear all,

Thanks again to the diligent efforts of the students on the USMLE task force, we have new information to share, and we would like to hear your opinion on this matter. The Medical Society of the State of NY just released the attached letter regarding the USMLE testing crisis. We are very encouraged to see this kind of support for medical students from the MSSNY, and we hope this will further help our cause to allow everyone to take their Step 1 and Step 2 exams in a more optimal way. We were curious what everyone thought about their suggestion to support Step 1 and Step 2 CK being made pass/fail this year, since there are pros and cons to this approach and we have heard differing opinions from Upstate students. Feel free to vote (and comment if you wish) on the following forms:

For Step 1: <https://forms.gle/jggACxxuyip9N73v7>

For Step 2 CK: <https://forms.gle/uK15ejGqeyR4fb1w5>

Sincerely,

The Upstate USMLE COVID task force
