

6/23/2020 – COVID Elective Update

Dear students,

We know many of you are eager to begin taking the COVID elective that we have been working on. Our current limitations are some technical issues as well as getting the final parts of the content and quizzes ready to go into the educational platform. We are continuing to work on this and will make an announcement when the course is ready for enrollment. Stay safe and be well everyone!

Dr. Mason
